

FREE CHOICES

God gave us the gift of a warm glowing sun,
its golden rays so bright;
He gave to us every star in the sky
to guide our way at night.

He gave us the moon to light our way
when the dark of night sets in;
He shows us His Love in so many ways,
So where should we begin?

God made the earth as a temporary place
for His children to reside;
He provided the trees, the grass and food,
and told them to abide.

He gave them laws to live by,
He paved the way for their growth;
But His children did not want to listen.
Instead, they ventured out on their own.

They lived their lives as men will do
when Satan is given free reign;
And the laws of God mean nothing,
and the mortal soul does not refrain.

He gave us free will to make our choices;
Be them good or bad, we choose.
So Satan steps in to do his work
in hopes that God will lose.

But if we're smart and choose to live
the laws God gave us to live by,
then after all is said and done,
He'll bring us to His mansions in the sky.

So make your choices wisely,
do what He wants you to do,
and Heaven will be your permanent home
with God for eternity, it's true!
